ELECTRIC HYDRAULIC POWER PACK

FEATURES

The electric hydraulic power pack is designed to use with our range of concrete Pile Cutters/Pile Breakers. These power packs are a great tool for the civil construction industry, they are a low cost and convenient option for powering pile cutters.

Intelligent design means the operator can easily change from wired to wireless control. International, first class air cooling and using high quality parts for manufacture ensure a long and reliable working life for the machine.

Technical improvements to the power packs design include variable adjustment of power output, increased efficiency and environmental protection.
